## Transfer Credits

All transfer students, particularly those educated outside the United States, must provide college bulletins and official copies of transcripts from their former institutions for transfer credit evaluations.

The Office of the Registrar may assign credit for courses equivalent to courses at Brooklyn College completed with a grade of D- or higher at colleges of the City University and/or with a grade of C- or higher at other accredited colleges. Credit may also be assigned, if the department recommends it, for courses for which there are no specific equivalents at Brooklyn College. Credit cannot be earned twice for the same course.

Transfer students who have taken courses on a pass/fail basis at another institution must provide a letter from that institution stating that a P grade represents competence of a level of C- or better in the course or indicating what standard of competence was required to obtain a pass grade.

After the completion of 60 credits, no credit will be given toward the baccalaureate degree for work completed at a two-year college.
